

WJ Martin

BUILDING CONTRACTORS

QUALITY & RELIABILITY
YOU CAN DEPEND ON

A Reputation for Quality and Reliability

For most people the decision to proceed with a 'build' project is a very important one and the choice of builder is crucial. Whether you need a simple porch, a garage, a two-storey extension, or a major renovation, you need to choose your builder wisely.

Why WJ Martin?

Established for nearly 30 years by Bill Martin, WJ Martin Building Contractors has built a reputation for outstanding quality, reliability and personal service. We have completed hundreds of building projects for a wide range of satisfied customers. From initial planning and design, through to completion, Bill and his team complete each project to the highest industry standards. You can be assured that we combine the all-important organisational and communication skills which are vital to the smooth running of each building project.

Personal Recommendation

For most businesses personal recommendation is a powerful advertisement and WJ Martin is no exception. We feature just a few of testimonials in this brochure received from satisfied customers which endorse our claims. We hope this brochure (and our web site www.wjmartin.co.uk) provides you with a comprehensive guide to the quality and variety of our work, helping you make the right choice for your building project.

We look forward to being of service.

Bill Martin

Planning & Design

Attention to detail and communication are essential to ensure the smooth running of any building project, large or small. WJ Martin can advise and guide you through every stage of the process. Our architects and designers are on-hand to provide drawings and building plans for a small front porch, to a large extension.

Firstly we carry out a measured survey of the existing building or site. This is followed by our providing you with a proposal, before moving to the planning and building control stage. Once you are completely happy with our proposal, we will submit detailed plans to the local authorities.

A Reputation for Quality & Reliability

We have numerous testimonials from satisfied customers having successfully completed so many projects over the last 25 years. Here we include just a few of the comments from our valued customers.

"We would like to thank you and your staff for work carried out in constructing our garage, we are very pleased with the result. Your men worked in a very professional manner, were always polite and minimised the disturbance to our drive. We would not hesitate to recommend you".

"The standard of workmanship is undeniably high but, more important was the way the project was managed. We were very pleased that work on an occupied, listed property was executed with minimal disruption to both ourselves and our neighbours".

"We were very pleased with the end result and thought that you and your staff and contractors carried out an excellent job".

"I would be grateful if you could pass on our thanks and appreciation to your staff, they have all been helpful, considerate and professional in their time here".
